LEGAL REFERENCES

The statutes relating to the operations of the Board of Medical Examiners are contained in the following sections of the 1947 Revised Codes of Montana.

Sections 66-1010 - 1049	Medical Practice Act
Sections 66-2501 - 2517	Physical Therapists Practice Act
Sections 66-601 - 611	Chiropody -- Regulation of Practice

P R I N C I P A L G O A L S

To continue providing well trained physicians for Montana.

To investigate unlawful activities of physicians, or others,
which are contrary to the Medical Practice Act.

To encourage well trained physicians to settle in those geographical
areas where there is inadequate medical coverage.

MAJOR ACCOMPLISHMENTS

1. Increased number of physicians practicing in Montana.

A total of seventy-four physicians were licensed.

2. Upgraded medical staff in state institutions.

All physicians employed by the state institutions are licensed either permanently or temporary (until citizenship requirement is met).

3. Stricter requirements on issuance of temporary permits.

Temporary permits now require a personal appearance before one Board member and review and signature of a second Board member. Such permits do not become valid until the date of the second signature. This eliminates the possibility of licensing an individual on a rush basis. The holder of the temporary permit then must meet the full board at it's next regular meeting.

PROGRAM DESCRIPTIONS

GOAL

Provide for the medical needs of the people of Montana by examining and licensing practitioners and by protecting against unprofessional, improper or unqualified practitioners.
